RESULTS OF DEPARTMENT EXAMS

GRADE VIII— Sylvia Atkinson, Leslie Bramley, Paul Greenan, John James, William McGregor, Norman Nash, Myrtle Ollivant, William Peters, Leo Trepanier, Marion Wiertz.

The following is a list of the subjects written on by students in the Carbon High School, June 1930. Only those who obtained a pass mark of 50 per cent are listed.

Algebra I—B. Fox 89; V. Atkinson 84; J. Code 83; N. Fuller 80; I. Mortimer 78; A. Morrow 65; A. Charlebois 62; C. Ramsey 56; H. Edwards 53; D. Mortimer 50.

Algebra II—P. Johnson 100; W. Poxon 94; A. Graham 90; A. MacDonald 83; A. Evans 73; M. Malton 72; J. Fairbairn 68.

Agriculture I—W. Poxon 54; Nelson McClure 50.

Agriculture II—M. Laing 50.

Art I—A. Morrow 60; J. Nash 60; R. Ramsay 56; N. Fuller 50.

Art II—M. Laing 73.

Arithmetic I—N. McClure 78; L. Wallace 76; P. Fuller 60; R. Ramsay 58; M. Ramsay 57; M. Fox 51.

Chemistry I—C. Poxon 89; L. Wallace 88; M. Ramsay 75; M. Laing 69; P. Fuller 68; R. Ramsay 66; N. McClure 64.

Composition I—A. Charlebois 70; V. Atkinson 69; B. Fox 56; P. Johnson 55; M. Malton 52; D. Mortimer 52; E. Trumbley 51.

Composition II—C. Ramsey 77; A. MacDonald 68; R. Gordon 66; A. Graham 60; M. Malton 58; J. Fairbairn 57.

Composition III—M. Laing 56; P. Fuller 55; L. Wallace 54; A. Morrow 50; M. Ramsay 50.

French I—M. Laing 78; A. Morrow 78; M. Ramsay 74; A. Charlebois 71; M. Fox 71; W. Poxon 67; R. Ramsay 63; J. Fairbairn 62; A. Graham 62; C. Poxon 61; B. Fox 57; L. Nash 56; A. MacDonald 53.

French II—L. Wallace 70.

General Science I—N. Fuller 74; B. Fox 69; D. Mortimer 65; V. Atkinson 55; I. Mortimer 55.

Geography I—C. Poxon 79; M. Ramsay 65; N. McClure 62; M. Laing 57; L. Wallace 56; I. Nash 54; A. Morrow 51; R. Ramsay 51.

Geometry I—D. Mortimer 75; B. Fox 74; V. Atkinson 72; A. Charlebois 72; H. Edwards 67; N. Fuller 65; R. Gordon 65; I. Mortimer 56; W. Poxon 63.

Geometry II—P. Johnson 72; A. Graham 70; A. MacDonald 67; A. Evans 65; J. Fairbairn 58; L. Wallace 58.

History I—B. Fox 75; V. Atkinson 69; A. Charlebois 60; M. Malton 59.

History II—A. MacDonald 68; W. Poxon 61; J. Fairbairn 59; M. Malton 55.

History III—N. McClure 70; M. Laing 64; C. Poxon 61; M. Ramsay 59; A. Morrow 58; L. Wallace 58.

Latin I—P. Fuller 50.

Literature I—D. Mortimer 71; A. Charlebois 62; M. Fox 61; V. Atkinson 57; N. Fuller 54; B. Fox 52.

Literature II—A. MacDonald 72; J. Fairbairn 60; M. Malton 55; A. Evans 53; R. Gordon 51.

Literature III—M. Ramsay 73; M. Laing 70; I. Nash 66; L. Wallace 65; A. Morrow 63; P. Fuller 56; R. Ramsay 56; N. McClure 55; C. Poxon 51.

NAVY LEAGUE HEAD THANKS CARBON CITIZENS

Fred Cooke, Provincial representative of the Navy League of Canada, who has been in Carbon on his annual visit collecting subscriptions to the Sailor Magazine and donations for the Navy League, thanks the citizens of Carbon for their loyal support to the Alberta Division as the sum of \$16.25 has been given.

The Navy League of Canada assists the widows and orphans of the men of the Merchant Marine. The League also supports the sailor's homes and institutes, etc., in all the large Canadian ports from coast to coast and looks after the welfare of the seamen when ashore. In addition to this, the League trains young men and boys, helping to make better Canadian citizens of them.

THE NEW CABINET

Hon. R. B. Bennett has taken over the government of Canada and has announced his cabinet as follows:

Hon. H. H. Stevens will seek election in East Kootenay.

Ottawa, Ont., Aug. 14.—(By Canadian Press)—The following is the list of the new Cabinet in order of precedence:

Hon. R. B. Bennett, Prime Minister, president of the privy council, secretary of state for external affairs and minister of finance.

Sir Geo. H. Perley, K.C.M.P., minister without portfolio.

Hon. H. H. Stevens, minister of Trade and Commerce.

Senator Gideon Robertson, Minister of Labor.

Hon. E. N. Rhodes, Minister of Fisheries.

Hon. Hugh Guthrie, Minister of Justice and Attorney General.

Hon. R. J. Manion, Minister of Railways and Canals.

Hon. E. B. Ryckman, Minister of National Revenue.

Hon. J. A. MacDonald, Minister without Portfolio.

Hon. Arthur Sauve, Postmaster-General.

Hon. Col. Murray MacLaren, minister of pensions and national health.

Hon. H. A. Stewart, Minister of Public Works.

Hon. C. H. Cahan, Secretary of the State.

Hon. D. M. Sutherland, Minister of National Defence.

Hon. Alfred Duralleau, Minister of Marine.

Hon. Thomas G. Murphy, Minister of Interior and superintendent general of India affairs.

Hon. M. Maurice Dupre, Solicitor General.

Hon. W. S. Gordon, Minister of Immigration and Colonization and Minister of Mines.

Hon. Robert Weir, Minister of Agriculture.

Racing the engine just before cutting off the ignition does not mean a thing to the modern motor. Furthermore, it is always an unnecessary procedure, unless the car is pulling.

Physics I—J. Fairbairn 57; A. MacDonald 66; J. Code 61; P. Johnson 60; W. Poxon 57; A. Evans 53; M. Fox 50.

TENNIS NOTES

CARBON AND GLEICHEN PLAY

The Carbon Lawn Tennis Club journeyed to Gleichen on Wednesday August 13th to play the return match with the Gleichen Club. A splendid days sport was had, the full nine matches called for by the Alberta Lawn Tennis Association rules being played as well as five extra matches. The result was a win for Carbon by seven events to two.

After the match the Gleichen Club entertained the visitors to a banquet in the Community Hall and proved themselves excellent hosts. In fact the whole of the arrangements reflected great credit on the Gleichen Club, who spared no efforts to make the occasion an enjoyable one for their guests.

The following are the details and scores:

Men's Singles—V. Hawkins of Carbon defeated A. Birch of Gleichen 6-4. G. Yates of Gleichen defeated B. Ramsay of Carbon 6-3.

Ladies' Singles—Mrs. Peters of Carbon defeated Mrs. McCullum of Gleichen 6-0.

Junior Men's Singles—M. Yates of Gleichen defeated W. Poxon of Carbon 6-3.

Junior Ladies' Singles—Miss Mabel Ramsay of Carbon defeated Miss Lewis of Gleichen 6-1.

Men's Doubles—L. Poxon and Wm. Edwards of Carbon defeated A. McCullum and H. Marcellus of Gleichen 6-3.

C. Nash and H. Willson of Carbon defeated Swain and Mattson of Gleichen 11-9.

Ladies' Doubles—Mrs. Peters and Miss M. Ramsay of Carbon defeated Mrs. McCullum and Miss Ottison of Gleichen 6-1.

Mixed Doubles—H. Brown and Mrs. Willson of Carbon defeated H. Marcellus and Mrs. Sather of Gleichen 6-3.

Extra Matches—Swain and Mattson of Gleichen defeated Nash and Brown of Carbon 6-3.

V. Hawkins and B. Ramsay of Carbon defeated M. Birch and McCullum of Gleichen 6-4.

G. Yates and M. Yates of Gleichen defeated L. Poxon and W. Edwards of Carbon 8-6.

Mrs. Willson and Miss M. Ramsay of Carbon defeated Dr. Windsor and Miss Milljour of Gleichen 6-4.

M. Yates and M. Brown of Gleichen defeated W. Poxon and C. Poxon of Carbon 6-3.

ACME PLAYS AT CARBON

The return match between Acme and Carbon took place on Wednesday, August 6th, at Carbon. Nine events were played and resulted in a win for Carbon by seven events to two. Some close and interesting games were played, especially the first set between V. Hawkins of Carbon and C. Smith of Acme, which only went to the Carbon player after 24 games had been played. The following are the results and scores:

Men's Singles—V. Hawkins of Carbon defeated C. Smith of Acme 13-11, 6-2.

J. Taylor of Acme defeated W. Edwards of Carbon 6-4; 6-3.

Ladies' Singles—Miss M. Ramsay of Carbon defeated Miss P. Fowler of Acme 6-0; 7-5.

STARK REALISM IN COURT SCENE "GIRL OVERBOARD"

A realistic police court scene is enacted in Universal's "Girl Overboard," starring Mary Philbin, which will show at the Carbon Theatre on Friday and Saturday of this week.

In most motion pictures, according to Director Wesley Ruggles, directors take what is known as dramatic license and instead of having things happen according to legal procedure they change the routine around to make it more dramatic.

But in "Girl Overboard" the most dramatic way of presenting the court sequence is to show it exactly as it functions. The creed of realistic atmosphere was adhered to by Ruggles in every scene. The waterfront shots, spectacular and colorful, were taken on two locations, San Pedro, California and San Francisco, where huge ocean liners furnished the background as they put to sea or arrived in the harbour.

The court sequence is perfect. The court itself, is an actual reproduction of a branch of the Los Angeles municipal court while the court attaches are accurate types. Even the judge is a human being and not the cold, stern type he usually is in motion pictures. "Girl Overboard" is a story of young love triumphing over environment through the kindly counsels of a tug captain.

IN LOVING MEMORY OF JOHN GARRETT

Who passed away on August 3, 1925.

Five years has passed since that sad day.

The one we loved was called away. God took him home—it was His will. But in our hearts we love him still.

Ever remembered by his Wife & Sons

Acme 6-0; 6-2.

Junior Men's Singles—W. Poxon of Carbon defeated J. McInnes of Acme 6-2; 6-3.

Men's Doubles—L. Poxon and J. M. MacDonald of Carbon defeated J. Taylor and C. Smith of Acme 6-4, 6-1.

H. Willson and H. Brown of Carbon defeated R. Moore and J. Hanlin of Acme 6-2; 6-4.

Ladies' Doubles—Misses P. Fowler & D. Hotsenpillar of Acme defeated Mrs. H. Willson and Miss Nora Hemming of Carbon 9-7; 8-6.

Junior Men's Doubles—W. Poxon & C. Poxon of Carbon defeated L. Rinn and I. McCook of Acme, 6-2; 6-3.

Mixed Doubles—H. Brown and Miss D. Nash of Carbon defeated R. Moore and Miss M. Smith of Acme 6-0; 7-5.

SCHOOL FAIR TO BE HELD SEPT. 4

The date of the Carbon School Fair has been set for Thursday, September 4th. This is the earliest that the Carbon school fair has been held for a number of years. On account of the fair coming during the time when school will be in session and the fact that Inspector McLean, who is to be the judge of some of the exhibits, and who will then be on a tour of inspection of schools, it has been decided to have these exhibits in the week before so that Mr. McLean will be able to judge them before the opening of school. Further information regarding this can be obtained by pupils. In the past the exhibits have always been numerous and it is to be hoped that this year the pupils of each school will endeavor to live up to past records. If pupils have not a list of the various sections or classes of exhibits, we understand that any information can be secured from the teachers or from the school boards.

LAWRENCE POXON'S TRUCK BURNS ON ROADSIDE

Lawrence Poxon had the misfortune to lose his truck by fire last week, when coming to town. Near Harry Best's farm Lawrence noticed flames coming up behind the seat and immediately he drove to the side of the road and got out of the truck. But little could be done to put out the flames, which had gained considerable headway in a few minutes, and the truck was a complete wreck. It is supposed that the fire started from a short circuit near the battery.

We are informed that the loss was covered by insurance.

WATER RISES IN CREEK

The Knee Hill Creek, which has been dry for the past six weeks, commenced to flow on Tuesday evening about 6.30 and within less than thirty minutes there was over four feet of water. The sudden rise in the water has been attributed to a coud burst North west of Carbon. The water in the creek has remained at this height, although it will soon recede unless there is more rain. A number of the young lads were successful in getting a few fish that were washed down with the water from the pot holes in the creek bed.

Some pupils don't like their teacher because they think teacher wants to know too much.

WORLD HAPPENINGS BRIEFLY TOLD

British Columbia's recent lumber mission to Australia will seek co-operation of the provincial government in securing a lumber tariff preference in that dominion.

The Italian council of ministers voted an appropriation of 100,000,000 lire, or about \$5,230,000, to rebuild the stricken earthquake area of Middle South Italy.

Mrs. Sarojini Naidu, woman leader of the Indian Nationalists, is said by the Daily Herald to be willing to compromise with the government somewhat short of Mahatma Gandhi's demands for independence.

The London naval treaty passed through all its stages in the House of Lords and only needed the royal assent before becoming effective. The bill gives legal support to the pact entered into at the recent London naval conference.

The visible supply of American grain at the end of July shows the following changes in bushels: Wheat increased 14,503,000; corn decreased 278,000; oats decreased 995,000; rye increased 39,000; barley increased 276,000.

Premier Ramsay MacDonald announced in the House of Commons that the government proposed to invite the leaders of the two opposition parties to nominate a representative from both Houses to participate in the round table conference on India which will be held this fall.

Great Britain's unemployment total is nearing the 2,000,000 mark. It was announced by the Ministry of Labor. The official statement said that on July 21 the number of persons out of work was 1,972,700, an increase of 32,834 in a week and 850,057 in a year.

Brandon police are looking for the person who passed an American one dollar bill off on a local hotel for \$20. The bill was raised from \$1 to \$20 in such masterful style that the authorities are of the opinion that the country might be flooded with the bills. The work is thoroughly done and it was only when the bill had received close scrutiny at the bank that the deception was caught.

Makes First Official Test

Premier Bracken Talks Over Radio
Phone From Flin Flon To Winnipeg

From the staff house of the Hudson Bay Mining and Smelting Company at Flin Flon, Mr. Bracken and Bruce Bracken, his son held a combined radio and long distance telephone talk with Mrs. Bracken, Winnipeg.

The premier's conversation marked the first official test of the new radio phone system between Flin Flon and The Pas and the results were entirely successful.

Winnipeg Hydro Developments

J. W. Sanger, of the City of Winnipeg Hydro, states that, due to new developments and technical improvements that make it possible to transmit heavier voltages than in the past, it is now possible for Winnipeg to bring power from the Nelson River.

KIDNEY TROUBLE BACKACHE VANISHED

FRUIT-A-TIVES ENDED YEARS OF MISERY

W. N. U. 1849

OUT DOOR LIFE CALLS FOR NOURISHING FOOD

By AMY SMITH
Well Known Domestic Science Authority

Off for a day or a month—in the car or hiking, boating, fishing—after a few hours you will find FOOD looms up as the biggest thing in the world. Scenery, yes—but such appetites!

Of course milk, and plenty of it, is essential for nourishing, appetizing food—and for campers or picnickers Borden's St. Charles Brand Evaporated Milk is by far the best choice, providing plenty of pure, rich milk, regardless of weather conditions, rough journeys, out-of-the-way camping places—and lack of ice.

Because Evaporated Milk has had half the water removed, you can rely on its extra richness, which can be utilized to take the place of eggs or butter in many kinds of cooking. For instance, an old guide, famous for his fish fries, told me that in camp he always dipped the fish in undiluted Evaporated Milk before the final coating with corn meal.

When Evaporated is to be used instead of milk in any recipe it should be diluted with an equal part of water. Remember this simple rule and you will find it successful in your own recipes. To "cream" your coffee, use it undiluted.

Speaking of Fish—

a "fry pot" is used by Canadian guides for cooking large chunks. After dipping the pieces of fish in Evaporated Milk and then in cornmeal drop into the deep fat (very hot) and fry until brown. And, by the way, take this hint from seasoned camp cooks—a very little fire of the right kind in the right place (if possible sheltered from the wind) will do the job better than a face-blistering conflagration.

A savory fish chowder is always a welcome dish in camp, and it's easily made with Evaporated Milk.

Fish Chowder

Cut the fish in chunks and remove as many bones as possible. Cover the bottom of an iron pot with slices of fat salt pork and fry out part of the fat. Remove part of the pork slices, then add a layer of sliced, raw potatoes, some sliced onions and a layer of fish. Cover with pieces of hard tack biscuit and season each layer, scanting the salt, for the pork is very salty. Repeat the process until the pot is two-thirds full. Add just enough water to cover to level of the fish. Cover the pot and simmer for one and one-half hours, or until the potatoes and fish are tender. Add one tall can of Borden's St. Charles Milk. Bring just to boiling. Serve.

Easy Hot Breads

Hot corn breads to eat with the bacon, fish, or pork and gravy, are a huge success after a day in the open—or to begin the day.

Cornmeal Flapjacks

1 cup cornmeal.
1 cup flour.
4 teaspoons baking powder.
½ teaspoon salt.
1 cup Borden's St. Charles Milk.
½ cup water.
2 tablespoons melted fat (bacon fat may be used).

Mix and sift the dry ingredients. Add the milk, diluted with water, and beat well. Add the fat. Bake on a hot, greased griddle or frying pan. They need a little longer cooking than wheat griddle cakes.

Camp Corn Dodgers

Put one quart cornmeal into a bowl. Make a hollow in center of meal and into this put one tablespoon lard and one teaspoon salt. Pour over this equal parts Borden's St. Charles Milk and water heated to scalding point, stirring all the time until a dough is formed which can be molded with hands. Cool slightly, form into cakes and cook slowly on a well greased griddle. (The quantity of diluted milk needed depends on the kind of cornmeal used.)

Lost Purse Is Found

Pocketbook Lost Eight Years Ago Is Recovered In Corn Field

A pocketbook containing \$35 lost eight years ago, was recently recovered by the loser. Back in 1922 Jacob Slagh, a Michigan farmer, was assisting his brother-in-law, Koene Vanden Bosch, harvest hay and lost his pocket-book. Vanden Bosch while cultivating corn in the same field spied the purse, so worn it fell apart when handled. It was carefully kept together and brought to its owner who turned it over to the United States treasury department for redemption of the currency it contained.

Faster 'Planes

Commercial 'planes of the future will have to be considerably faster to suit' Lieut. Alford J. Williams, American speed ace. "If 130 or 150 miles an hour were to be the top speed we could hope for in commercial air transportation, I would suggest that the public cease to waste its time on aviation and that they hereafter look upon it as a hobby," he says.

PILE PAIN

Ends in 1 Minute
"Ended burn, itch and pain of piles in 1 minute with 'Sootha-Salva,'" writes L. T. Sears. "Bleeding stopped. Piles soon vanished. Avoided operation." Get instant results today. All druggists.

Winnipeg Newspaper Union

(By Annebelle Worthington).

Your little girl will look just as cute in this frock of sprigged dimity in lovely soft pink colouring.

It opens at the front beneath the perky bows that are made of white organdie to match the cape collar.

The skirt creates a spic and span appearance.

The full-cut bloomers peep smartly beneath. They have elastic inserted at the knees.

Style No. 2572 is designed for tiny tots of 2, 4 and 6 years.

For playtime, it is fetching in red and white gingham check with collar and bows of white pique.

Orchid linen with white dots with white sheer linen is unusually smart. Pale blue pique, dotted Swiss, French blue pique with white collar, printed tub silk in pale pink tones and yellow linen are attractive combinations.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

SUNDAY SCHOOL LESSON

AUGUST 10

HANNAH "A GODLY MOTHER"

Golden Text: "My son, hear the instruction of thy father, and forsake not the law of thy mother."—Proverbs 1.8.

Lesson: 1 Samuel 1.1-28; 2.1-11, 18, 19; 3.1-18.

Devotional Reading: Luke 1.46-55.

Explanations and Comments

Hannah's Prayer For a Son, Chapter 1.9-11.—Hannah and her husband Elkanah went regularly every year to the Sanctuary at Shiloh, there to worship and offer sacrifice at one of the great religious feasts, probably "The Feast of Ingathering," or "Feast of Tabernacles," which was held after the grape and olive harvest.

As was customary, after a portion of the sacrificial victim was burnt at the altar, and another portion had been given the priests, the family partook of the rest within the sanctuary precincts. But Hannah could not eat, for sad and bitter thoughts filled her mind as she contrasted her childless lot with that of Peninnah, Elkanah's other wife, who was blessed with many children. After the meal was over she presented herself in the temple to pray to Jehovah. Her prayer was accompanied by many tears as, standing with her face towards the ark, she made her vow that if Jehovah would bless her with a boy, she would consecrate him all the days of his life to Jehovah, and he should be a Nazirite, one set apart to the Lord, of which his unshaven head would be a token. The characteristic marks of the Nazirite were the refraining from wine and all intoxicating drinks, the letting the hair grow, and the avoidance of defilement by corpses.

The Answer To Prayer, 1.19, 20.—Hannah returned to her home in Ramah. When she was made happy by the coming of a son, she named him Samuel, "Because I have asked him of the Lord." Hebrew scholars tell us that the word "Samuel" has no connection with the Hebrew word for "asked," and they connect the first part of the name with the Semitic root for "name," taking Samuel to mean "Name of God."

Hannah Gives Her Only Son To the Service Of Jehovah, verses 24-28.—When Hannah weaned her boy, he was probably three years old, she brought him to the house of the Lord in Shiloh. She brought also an offering, as the law required for the first-born—three bullocks, a bushel of meal and a bottle of wine.

Hannah made herself known to Eli the priest by recalling the time when he had seen her praying in the sanctuary, and then she presented the boy for whom she had prayed.

Shortage Of Small Coins

French business men recently complained to the Ministry of Finance that there was an insufficiency of 50 centimes (approximately 2 cents) pieces in circulation and demanded a new stamp. The ministry estimates that there are 446,000,000 50 centime-pieces in circulation.

TAKE NO CHANCES WITH BABY!

Cook Her Food in the "Health Ware"

Doctors recommend Enameled Ware for cooking baby's food. It is so simple to clean . . . so easy to keep sanitary and free from germs. It cannot stain. There is no metal surface exposed to the food. Nothing to absorb moisture, flavors nor odors.

Make sure you get McClary Enameled Ware . . . the Modern "Health Ware". Watch for the familiar McClary label.

DON'T FAIL TO EXHIBIT

The announcement of the Carbon School Fair on September 4th comes as a surprise to many and it does not leave very many days for the pupils to prepare their articles for exhibition. However, there is still plenty of time for children to prepare their exhibits for the fair and parents should endeavor to see that their children enter exhibits in every class possible. One of the principle functions of the school fair is to give the children an opportunity to compete with their class mates, not only in garden produce, art, livestock, etc., but also in athletic events and the School Fairs should be encouraged for this reason if for no other. If you children have not already prepared your exhibits, do so at once. The fair is for your benefit. Make the most of it.

THE PRICE OF COAL

It is rare that a mine disaster of the magnitude of that at the Blakeburn mine, Coalmont, British Columbia, occurs in Canada. Fortunate as we are in that respect we are able to be impressed the more keenly with the tragedy that not only encompasses the unfortunate victims themselves, but their wives and families. Forty-two men appear to have found their graves in the depths of the mine, many of them the breadwinners for their children and other dependents. The tragedy brings again vividly to the fore the perils of a miner's life. Gas blast and

after damp have been the most deadly foes of the coal miner since man began to delve for coal. Added to these are the equally dreaded fall of rock and the cave-in as well as the lesser chances of accident which are, nevertheless, numerous enough to be of frequent report. Not all the many safeguards developed as the outcome of many years of experience with mine mishaps are sufficient to avert loss of life.

Miners live heroically with the ever-present threat of more than common dangers and the stuff of which they are made is invariably shown in their rescue parties. At Blakeburn the comrades of the entombed men and parties of other miners from other mines stuck fast to the tradition of their calling. When lives were at stake was not the time to think of safety and it will be the general regret of the Dominion that their bravery was fruitless. —Calgary Albertan.

He had told her the age-old story, and, torn with emotion, waited for a few short words that would decide his fate.

"George," she answered, "before I give you my answer you must tell me something. Do you drink anything?"

A smile of relief lighted his handsome countenance. Was that all she wanted to know. Proudly, triumphantly, he clasped her in his arms and whispered in her shell-like ear, "Anything."

MOTORS AND THEIR CARE

Burning Headlamps in Daytime

It is not necessary to turn head-lights of the car on in the daytime. In the early days batteries and generators were not in their present state of high development. Batteries were undersized and would charge fully with a few hours driving. In order to avoid injuring batteries it was often suggested to turn on the lights during long drives in summer as a means of reducing the charging rate. Today this practice is not needed. If a motorist is in the habit of taking unusually long and steady trips he can have the generator charging rate reduced which automatically takes care of the situation. There is only one way that a driver can tell if the battery is being overcharged and that is if it needs to be refilled with water more than once a week.

Never start to back a car until there is positive assurance that there is no child, person or obstruction in the line of movement.

Don't exceed the speed limit. It is dangerous and may prove costly.

Hazard of Warm Weather Motoring

Motorists may become fussy about brakes and lights during their long drives in hot, summer evenings, but they overlook one source of grave danger—worn-out tires. The worst danger from old tires is from blowouts while travelling at a high rate of speed, for the reason that the heat softens the hold of thinned fabric and by heating the air inside the tires, increases the pressure. Given certain conditions a blown tire will turn a car over and cause serious injury and possibly death to occupants. Then there is the danger of losing control because threads are worn down. On a

wet road a car with tires whose treads are badly worn is seldom under control at usual speeds. Skidding is not the only danger. Sliding forward with all brakes set is a common accident.

Efficiency of Engine Depends On Spark Plugs

The current of electricity will flow at too low a pressure to generate a spark if the air gap of the spark plug is too small, and if the gap is too wide the current cannot burst through at all. The points of the plugs must have the proper opening and from one sixty-fourth to one fifteenth of an inch [a visiting card will make a fair

gauge] is right for most cars. The care of spark plugs, therefore, resolves into the keeping of the point opening just right, and a periodic cleaning to remove carbon or oil. It will prove a decided economy to buy only the best spark plugs. A cheap plug may look just as good, but the porcelain may not be able to stand the great heat it is subjected to. The porcelain will soon break and so let the current flow through the break before it will jump the points or air gap. When this happens the spark plug is said to be short circuited. A good spark plug may give 30,000 miles of service; a poor one may not yield 100 miles.

YOU CAN PREVENT FOREST FIRES

Check

FOREST
DESTRUCTION

Canadian forest industries add five hundred million dollars annually to the national wealth. Their very existence is threatened by forest fires, which directly or indirectly affect every citizen through their menace to the national prosperity.

Every Canadian should be careful with fire while in the woods.

Makes His Last Run

Richard Christopher, for 50 years a mechanic, fireman and locomotive engineer on the Canadian Pacific Railway, opened a throttle for the last time recently when he took his train on the run from London to Windsor, Ontario. He has been selected on various occasions to handle special trains for distinguished Canadian visitors,

including the Prince of Wales, Governors-General of Canada, the Duke of Connaught, and many others. It is his boast that in all these years he has never had a single accident. A touching feature of his last run was the fact that his son, Thomas, although also a locomotive engineer, acted as his father's fireman.

Save the
FORESTS
Millions depend on them!
FOREST SERVICE
DEPARTMENT OF INTERIOR

BENNETT WILL PROCEED TO FORM HIS NEW CABINET

Ottawa, Ont.—A special session of parliament—probably on or before September 11—is a certainty. Carrying out his promise to the Canadian people to deal with unemployment "immediately after July 28," Premier-elect Hon. R. B. Bennett is already taking action in this direction as the first step towards the implementation of the pledges he gave during the recent campaign.

Tuesday, September 2, looms as the probable date for by-election day if any minister selected by the Conservative chieftain to serve in his administration happens to be opposed.

By-election writs will likely be issued as soon as Mr. Bennett takes office as Prime Minister, with nomination day likely set for August 18, in case any chosen minister represents a constituency in which, under the Dominion Election Act, two weeks must intervene between nomination and polling day. The majority of constituencies only require the intervention of seven days.

Probable cabinet selections are the chief topic of discussion among political observers in the capital. In addition, speakers of both the House of Commons and the Senate will have to be appointed. By reason of his ill-health, Hon. Hugh Guthrie (South Wellington), may be made speaker of the Commons, or George Black (Yukon), may be chosen. If his health, however, is considered to permit his undertaking more arduous duties, Mr. Guthrie will probably be appointed to the cabinet.

Hon. R. J. Manion (Fort William), is another very probable selection. Dr. Manion was postmaster-general in 1926. Hon. J. D. Chaplin and Hon. E. B. Ryckman are prominently mentioned for other cabinet posts.

For the province of Quebec, Sir George Perley (Argenteuil), former Canadian High Commissioner in London; Maurice Dupre, who defeated Gerard Lacroix, in Quebec West; Arthur Duranleau, victorious Conservative candidate in Champlain Vercheres, and Arthur Sauve, former Conservative leader in the Quebec legislature, are mentioned.

Premier E. S. Rhodes, of Nova Scotia, and W. G. Ernst, elected in Queens-Lunenbourg, are possible appointees from Nova Scotia; in Prince Edward Island, Hon. J. A. MacDonald or J. H. Meyers continue to be mentioned for the cabinet.

For the speakership of the senate, Hon. C. P. Beaubien, Montreal, who was joint chairman at the 1927 Winnipeg convention of Conservatives, is a possible appointee.

Want Wider Markets

British Columbia Lumbermen Look To Britain For Sale Of Products

Victoria, B.C.—Urging a greater participation in the British markets by B.C. lumber and asking that a delegation be sent to the Imperial Economic Conference in the fall to further this aim, a delegation representing the lumbermen of the province waited on Premier S. F. Tolmie recently.

The lumbermen described conditions in the province as being exceedingly unfavorable at the present time. Prices were falling and demand was shrinking. The British market was the only one which showed possibilities of expansion.

Declined To Receive Deputation

London, England.—A parliamentary committee appointed to deal with grievances of Indians in Canada, informed a delegation of Six Nations Indians from Brantford, Ont., that Rt. Hon. J. H. Thomas, Minister of Dominion Affairs, had declined to receive the deputation on the ground the grievances claimed were a matter for consideration by the Canadian Government.

Has Nothing To Say

Winnipeg, Man.—Hon. T. A. Creer, Minister of Railways, who was defeated in Brandon constituency in the federal elections, before leaving for Ottawa, said he "had nothing to say" regarding possible plans for his return to the House by a by-election in some constituency.

W. N. U. 1849

Chinese Pillage Homes

Communists Loot and Burn Foreign Holdings

Shanghai, China.—In the most serious devastation of foreign property in China for many years, Communists looted and burned all or nearly all foreign holdings at Changsha, capital of Hunan province.

Foreigners generally were safe aboard British, United States and Japanese gunboats, five miles down the Siang River. Four missionaries who elected to remain in the city were unaccounted for.

Changsha was divided into 50 districts for pillaging. Directed by leaders, the despoilers carried foreign effects into the street as plunder before firing the buildings. Coolies looking on were harangued by the Red leaders, and many were persuaded to join the Communist army to seize a share of property "wrongfully possessed by the upper classes."

Despatches said foreign consulates, residences and large office buildings on Shuiliu Island opposite the city probably would be destroyed.

Value of foreign property already burned amounted to millions of dollars. The total could not be estimated.

Change Permit System

New System Of Liquor Permits To Be Introduced In Ontario

Hamilton, Ont.—Introduction of a new system of liquor permits under which the total amount of purchases will be designated in dollars and cents, was announced by Sir Henry Drayton, chairman of the Liquor Control Board, at the convention here of the Chief Constables Association of Canada.

This was one of the measures definitely decided upon to curb the abuse of liquor purchasers by recognized permit holders in Ontario.

Queried by a delegate, Sir Henry admitted there were faults in the present Ontario system, but, he declared, "I do not think we ever will have the free sale of beer in stores or in parlors."

A dangerous criminal sought in connection with a major crime usually is safe in jail while serving a nominal vagrancy charge. This was the message brought by Chief Mort. S. Wigle, of Windsor, in a paper advocating for police departments the privilege of taking fingerprints and photographs of persons held on charges of vagrancy.

Imperial Conference

Premier Ramsay MacDonald Says Problems Of Unprecedented Difficulties To Be Faced

London, Eng.—The Imperial Economic Conference must face constitutional problems of unprecedented difficulty, Premier J. Ramsay MacDonald told a meeting of the United Kingdom Branch, Empire Parliamentary Association, in Westminster Hall, recently.

The year is going to be one of the great, deeply marked years in history, thought the premier. Whoever had the responsibilities connected with the Imperial conference would only succeed by skilfully practising the art of blending lessons of the past with the outlook on the future. While believing in party government, he felt an attempt should be made to get Imperial questions considered first by all parties.

After all, he declared, the commonwealth and the nations which compose it are very much greater than any one party.

U.S. County Judge Sent To Prison

New York. — W. Bernard Vause, who as county judge in Brooklyn, was noted for the severity of his sentences and who once recommended the whipping post for criminals, was sentenced to six years in federal prison. Judge Vause was found guilty of using the mails to defraud in the conduct of the defunct Columbia Finance Corporation.

Report Massey Has Resigned

Toronto, Ont.—The Mail and Empire in a news feature says: "Hon. Vincent Massey is understood to have forwarded to Rt. Hon. W. L. Mackenzie King his resignation of the post of Canadian High Commissioner to Great Britain and to have asked that Hon. R. B. Bennett be so advised."

SEES TROUBLE BREWING

Jas. W. Gerard, U.S. ambassador to Germany under President Wilson, who upon recent return to New York from Europe, declares war is brewing between France and Italy.

Emphasizes Independence

Premier Hertzog Says South Africa Has Right To Secede From British Commonwealth

Pretoria, South Africa.—Emphasizing the complete independence of South Africa and her right to secede from the British Commonwealth of Nations if she ever in the future desired to do so, Prime Minister James Barry Hertzog delivered an important speech on the eve of his departure for the Imperial Conference in London, England.

"No iota or tittle of our independence will be sacrificed," he said. "I am convinced we possess complete independence. The people of South Africa will be prepared to an ever-increasing extent to heartily maintain co-operation with Great Britain and the other Dominions. But co-operation will depend on national independence. In no circumstances may the right to secede from the British Commonwealth be taken from South Africa."

Body Of British Flyer Is Found

London, England. — The Evening News carried a despatch from Rangoon which said the body of the British flyer, Eric Hook, when found in the jungles of Burma, was little more than a skeleton. It apparently had been terribly mauled by a leopard or a tiger. Hook was lost when his plane was forced down on an attempted flight to Australia recently. His partner was saved.

Party Standing

Toronto, Ont.—The Canadian Press summary of the standing of the parties in the Dominion elections is as follows: Conservatives, 138; Liberals, 86; U.F.A., 10; Progressives, 2; Liberal-Progressives, 3; Independents, 2; Labor, 3; doubtful, 1; total, 245.

GOVERNOR-GENERAL VISITS FIRST CANADIAN HEALTH UNIT

This picture was taken when Their Excellencies Lord and Lady Willingdon visited the County Health Unit in Beauceville, Quebec. This Health Unit was the first to be formed in Canada and has been operating on full time for a number of years with great benefit to the surrounding communities. A motion was made in the House of Commons during the last session asking the Canadian Government to consider subsidizing these small full-time medical departments in rural communities from coast to coast.

Improved Crop Conditions

Betterment During the Past Week Is Reported In Some Areas

Ottawa, Ont.—Crop conditions have improved, particularly in central Saskatchewan and Alberta, according to the weekly crop report issued by the Dominion Bureau of Statistics. In Manitoba there has been an increase in severity of stem rust infection, some stands in the central and southern sections of the province having infections ranging from 30 to 75 per cent.

The report continues: Western weather since our report of July 24, has been hot, with scattered showers and some good rains. Precipitation was heaviest in southern Manitoba, in central Saskatchewan, and in central and northern Alberta over much the same territory which received beneficial rains during the previous week. The first low temperatures of the harvest season were recorded from northern and southern stations of Alberta and from Vidora, Saskatchewan.

Crop conditions show a further betterment during the week, particularly in central areas of Saskatchewan and Alberta. Frosts, sufficient to blacken potatoes, are reported by the Beaver Lodge sub-station, in the Grande Prairie district. Since from one to seven degrees of frost were recorded, some damage to grain will result, although the extent cannot be determined. With favorable weather conditions, stem rust infection shows a serious increase on the leafy, late bread wheat of Manitoba, with only slight increases on the lighter stands of Saskatchewan wheat.

The full text of the wire from the Dominion rust research laboratory at Winnipeg is as follows:

"Weather conditions were favorable for stem rust development in past week. Decided increase in severity of infection on common wheat throughout Manitoba. Some heavy stands in central and southern Manitoba have infections ranging in severity from thirty to seventy-five per cent. Injury already apparent in certain fields of this area. Light stands much less affected. Some fields of early variety ready to cut in about a week. Only traces rust on durum wheat. Stem rust increasing on barley, severity now ranges five to twenty-five per cent. No decided change reported in rust situation of north-eastern Saskatchewan on July 25. In south-eastern Saskatchewan rust has increased with severity of infection ranging from one to six per cent. on wheat and barley and pustules appearing on necks of plants. Leaf rust found on wheat in Alberta, but no stem rust yet reported."

Protest Against Use Of Liquor

Washington. — A protest against the use of liquor at the British embassy has been received by Sir Ronald Lindsay, from Samuel B. Woods, former Mayor of Charlottesville, Va., and an ardent dry.

NATIONAL WORKS GO ON UNDER NEW GOVERNMENT

Ottawa, Ont.—The tide of party success ebbs and flows but the great national undertakings of this Dominion go on. Several governments have come and gone since the work was first started on the Welland ship canal. It was to have been officially opened on July 1, with a Liberal ministry directing. This formal ceremony had to be put off and now a Conservative government will be in office for this historic event. It is not expected the date for the opening will be fixed for some time.

In the case of the Hudson Bay Railway, the driving of the last spike was planned for last fall but these plans were changed. It was decided to have the celebration on the occasion of the opening of the ocean route rather than at the completion of the railways, so it will likely be next year. Therefore, the new government will officiate at the completion of these works started many governments ago.

The probability is that the new ministry's greatest undertaking will be the St. Lawrence River deep waterways. This prospect makes the portfolio of Minister of Railways and Canals one of the most important in the government, even more because of the canals than the railways. That is why many people in this city are expecting Premier Howard Ferguson to be the one selected to fill that position.

It is interesting to trace the lives of governments alongside such works as the Welland ship canal or the Hudson Bay Railway. The first contracts for the railway were let by Rt. Hon. George P. Graham as Minister of Railways and Canals in the Laurier Government, in 1910. This was for one section. Then the government of Sir Robert Borden came into office and the contracts for two other sections were let by the Conservatives. Nelson was then the objective.

Work proceeded through the Conservative tenure of office and into the time of the Unionist regime. It was discontinued in 1918 because of the stress of the war. The government of Mr. Meighen came after that, and in 1921 the government of Mr. King took office. In 1926 the terminal was shifted from Nelson to Churchill, and the railway to that point was completed last year. The port construction and the aids to navigation are in course of construction.

The work on the Welland Canal was started under the Borden government, in 1913, and continued until the war stopped it in 1917. It was started again under the Unionist government late in 1918 and has been continued ever since.

Saskatchewan Egg Pool

Increase In Prices Over Those Paid In 1929

Regina, Sask. — An increase in prices over those paid for the same period in 1929 is noted in the final payment of the Saskatchewan Co-operative Poultry Producers Ltd., or Egg Pool, cheques for which are now being prepared at the head office here. This payment covers the second pool of the year, which closed Saturday, July 19.

The prices being paid are: Extras, 22 cents; first, 19 cents; seconds, 17 cents, and crax, 15 cents. They are net cash, f.o.b. shipping point on freight shipments.

Investigate Power Resources

Prince Albert, Sask.—Representing H. G. Acres, Niagara Falls Hydro electric expert, retained by the provincial government to examine into the feasibility of power sites in Northern Saskatchewan, G. Kribs and H. S. Barnett, electrical engineers, Niagara Falls, Ont., were in the city en route to Horse Shoe Bend, 25 miles east of here, below the confluence of the Saskatchewan rivers, to commence a check of the water power potentialities of that side.

"A Great Deliverance"

St. John, N.B.—Hon. J. B. M. Baxter, Premier of New Brunswick, discussing the Dominion election result said: "I think Canada has sustained a great deliverance."

TOWN & COUNTY Personalographs

Mr. H. Birch and Allen, of Cluny, spent Sunday in Carbon.

Students who failed in Grade XI subjects have an opportunity of re-writing these subjects in Calgary. These examinations begin on Thursday morning, August 28th. For particulars see Mr. Connolly, the Carbon High School Principal.

Mr. and Mrs. Henry Johnson have moved to Southern Alberta and Mr. and Mrs. C. A. Dunsmore have taken up residence in the house vacated by the Johnson family.

Miss Kathleen Watkins returned Sunday night from a two week's holiday spent at Vancouver and Seattle points.

Mr. and Mrs. Jack Shale came out from Calgary last week end and will spend a few weeks in the district.

Miss M. Maltin returned Sunday from a few days visit with friends in Calgary.

S. Mortimer recently underwent an operation for Cancer, at the Holy Cross Hospital, Calgary, and although his condition is reported critical, we understand that he came through the operation successfully.

C. H. Nash has moved into the main section of his building, which was recently vacated by C. V. Gray, and Mr. Nash now has a more up-to-date grocery store, with plenty of room for his large stock.

Miss Edith Braisher came home on Friday from Calgary and will spend a couple of weeks here with her parents.

Nelson McClure and Paul Wells of Drumheller were Carbon visitors for a day last week.

Mrs. W. A. Braisher and her sister, Mrs. King, of Calgary, left last Saturday for a few days visit with relatives in Edmonton.

Mr. and Mrs. S. F. Torrance and children returned Friday from a weeks holiday spent at Waterton Lakes.

Alfred Braisher was home for a couple of days last week and left again on Sunday for Seebe, Alberta, where he is employed.

Mr. and Mrs. E. J. Rouleau returned Sunday night from a two week's holiday.

PEONY DAY

October 1st to be Recognized as
Peony Planting Day

Tulip days, Rose days, make us think of those glorious displays in some of the Pacific coast cities. In Alberta over 600 organizations are being circularized by the Town and Rural Planning Board in support of the suggestions of Mrs. F. E. Wyman, the Vice President of the U.F.W.A., that October 1st of this and succeeding years should be a day on which the people of this province should plant peony roots. The peony is one of our hardiest perennials and one of the most attractive flowers.

Circulars are being sent to the secretaries of the U.F.W.A. locals, Women's Institutes and to Horticultural Societies. These organizations are being requested on behalf of members interested to place early orders for peony roots with their nurseries. Already several organizations and those interested in horticulture have expressed themselves as in greatest sympathy with the movement, states Mr. Horace L. Seymour, Director of Town Planning.

It is also hoped to interest the school children of the province on their return to school and that peony roots will be planted at each school and one or two at every home, the cost of the ordinary varieties of white, pink or red peonies being very reasonable.

Circulars in regard to the planting of peony roots are being distributed and may be obtained at the office of the Director of Town Planning, Edmonton, Alberta.

day spent at Kaslo, British Columbia. Business in general in British Columbia is practically at a standstill and much in that Province depends on the prairie wheat crop.

Miss Annie MacDonald recently underwent an operation for appendicitis at the Drumheller Hospital. She is recovering rapidly.

Cutting in the Carbon district has been practically completed and some of the farmers have commenced their threshing operations. We have not been informed of the yield of the new crop, but it is expected that wheat will go from 15 to 20 bushels to the acre.

I. Berg, Jeweller, will be in town for the next couple of weeks and he is stationed at the store of the Carbon Trading Company. Mr. Berg is quite well known in the town and district, he having been here for a couple of years when the railroad was being constructed here.

Miss Mary Robertson and George Robertson motored down from Edmonton on Saturday and spent a few days in Carbon and district renewing acquaintances. They left yesterday on their return trip to Edmonton.

All pupils who intend to enter the Carbon High School this coming term are asked to communicate immediately with the secretary-treasurer, Mr. Alex Reid.

DUCK SEASON APPROACHING

Hunters of this district will do well to make a study of the "Migratory Birds Convention Act" or any enquiries concerning this law may be addressed to the Commissioner, National Parks of Canada, Department of the Interior, Ottawa. A study of the Act will reveal the closed and open seasons, guns and appliances prohibited, and the penalty for persons violating and provisions of the Act or regulations. The duck season in Alberta, south of the Clearwater and Athabasca rivers, will be open this year from September 15th to December 14th. The bag limit is 30 in one day and not more than 200 of all kinds in a season; geese, 15; coots 25, Wilson's snipe 25, the latter three being included in the open season for ducks.

Efficient driving is maintained at speeds between 30 and 35 miles an hour.
